# GREASABLE DOUBLE ROD END TUBE KIT

## 5/8" Rod Ends Featuring Double Rod End

The Greasable Double Rod End is IDEAL for times where a need to shorten or lengthen a suspension rod to tune a chassis. Instead of replacing or swapping different length suspension tubes, you just move the bolt into the other rod end to make the adjustment. The Rod End has a 2" spacing. Available in both 7/8" and 1" O.D. Round Steel as well as Aluminum Round and Hex versions.
